Forty-five Copies to One Address for $5, and Eight Copies for $1. Single Copies 10 Cents.

THE CAMPAIGN WEEKLY TRIBUNE has now reached a circulation of 84,000 copies. It has been forwarded to subscribers since the opening of the campaign below cost to the publishers.

The Tribune Company has deemed THE CAMPAIGN WEEKLY to be its contribution to the good work done on behalf of the Republican candidates.

Since the period for which the original subscriptions were made has partly expired the Tribune offers a corresponding reduction in the price of THE CAMPAIGN WEEKLY, which will be sent from now till after the Presidential election (ten weeks) at the following rates:

| | |
|---|---|
| One Hundred Copies (to one address) | $10.00 |
| Forty-five Copies (to one address) | 5.00 |
| Eight Copies (to one address) | 1.00 |
| Single Copies | 10 cents |

These rates only cover the cost of the white paper and presswork, and allow no margin for mailing, postage, or bookkeeping.

10 copies are required to be addressed to each member of a club the terms are:

| | |
|---|---|
| Sixty Copies for | $10.00 |
| Thirty Copies for | 5.00 |
| Six Copies for | 1.00 |

This offer is unparalleled in the history of journalism, but we make it to help secure the election of Blaine and Logan. The country cannot afford to have a tool of railroad monopolists and an enemy of the workmen in the Presidential chair, nor can it afford to have its business interests disturbed and its finances deranged. It cannot afford to have the Government turned over to a horde of ambitious conspirators who want control only for purposes of plunder.

THE CAMPAIGN WEEKLY is a large eight-page paper of fifty-six columns, crowded with a great variety of interesting reading. It contains the freshest political reports printed anywhere during this campaign.

It has a full page of editorial articles and paragraphs discussing the leading topics of the day.

It gives a complete summary of all the news of the week in concise and readable form.

It has the best market reports, prepared by the ablest writers.

It surrenders one page wholly to family reading, embracing short stories, sketches, poems, and miscellany.

Social and League clubs, campaign committees, and individuals interested in the success of Republican principles this year, can have no more useful ally than THE CAMPAIGN WEEKLY at the very low rates for which it can now be obtained.

Eight copies (to one address) for $1. One hundred copies (to one address) for $10. Send orders to THE TRIBUNE COMPANY, Chicago, Ill.

NEW YORK, Aug. 26.—[Special.]—One of the oldest importers in the Dutch trade, Wolf Fraser, doing business at No. 45 Warren street, was arrested today charged with a series of forgeries by which the Second National Bank of Jersey City claims to have been defrauded out of $50,000. The warrant was issued upon the complaint of Cashier Hall of the bank, and Fraser was arrested in his office before noon. Those connected with the bank refused to say what would be an alleged cause of the forgeries, but it is understood that they were committed in the hope of tiding over financial troubles. Fraser's father was formerly a wealthy merchant of Jersey City, and the son has been in business for himself for about two years. He is married and has a family residing in Jersey City. He was taken before Commissioner Shields, and bail was fixed at $10,000, which was promptly furnished by his father.

**The Contest Got After a Hard Fight-But Mr. Solly Insists—The Scrap.**

One of the most respectable contests and most brutal fights with the gloves on record—as regards principals, seconds, backers and those of the spectators possible—took place at an early hour yesterday morning in a barn-like structure on the city limits, the parties to the affair being Bob Chandler and John Flinn. The latter has for a year past enjoyed numerous fistic encounters, but in each one previous he has been worsted, either on account of his opponent's science, but in most cases because he could not stand the punishment dealt out to him. Chandler, on the other hand, is a comparatively new man in the ring, but has gained a reputation as a hard hitter and a fighter who would not be whipped. Both men were in good condition, and, as each was confident of victory, a big crowd was present to witness the fight. There was a good deal of money staked on the result, and the betting was quite lively. Flinn was the favorite, and the odds ranged from 10 to 7 to even money. Chandler was seconded by Charley Steele, a well-known sporting man, and Flinn by Billy Solly, a pugilist of considerable reputation

CHINA AND FRANCE.

[Special Cable to The Tribune.]

London, Aug. 26.—[Copyrighted by the Associated Press.]—Confirmation of the reports of the success of the French fleet in effecting a junction of war ships with the fleet in Chinese waters, thus giving it greatly increased strength, and the further fact that the Chinese Government is massing troops at Canton, are the principal features of the news from the seat of war this morning. ## BRITISH SCIENTISTS.

### The Meeting in Montreal Today of Their Pretense Association.

### The Distinguished Men Who Will Be Present and the Papers They Will Read.

### Entertainment to Be Given with Lavish Hand by the Citizens of Montreal.

MONTREAL, Que., Aug. 26.—[Special Correspondence.]—Montreal just now is on the eve of an important era in her history. She hears a hint that some society in Canada would give accommodation to the congregated scientists of Great Britain; very likely no other city would attempt to do so. But a city that has not a submarine canal to help the world's freight to her doors a distance of over 500 miles would not refuse to receive in her midst and bother the world's scientists. This is precisely what she is doing.

SCIENCE COMES TO AMERICA.

There is none of the excitement of a political convention at the height of a close canvass in the preparations. There are carried on in a cool, fussy sort of fashion parties to the delegations. There is not much stampede to the most trivial methods which control the preparations for the meeting of the American Association a few years ago. It may be that this is not of importance to the visiting scientists. It may be that the men making the preparations, who are the same in professional debate, have applied to the experiences of the American society to which others have gone carefully. It may only be that the Montreal element is not to be found in the Canadian Association. Certain it is that there is a prevalent feeling about the arrangements for the meeting of the British Association as if it were a matter of business. Montreal is not to be the scene of a political convention, nor yet is it to be the scene of a religious gala or scene of the Exhibition last summer from the river and away from the promenade.

Only to the casual observer, who believes that the American citizen is getting indifferent to such work, seems the desire of the city that Montreal's identity shall be lost in the Dominion. Quebec is to be entered that proud, quiet old city by land or steamer to discover the magnificence which can command. Then when the English visitors have had their fill of the Quebec they will go into the heart of Montreal. Every effort is being made to receive these visitors in a manner worthy of them.

Montreal is to be the scene of the annual meeting of the British Association for the Advancement of Science. This association was founded in 1831, and has met in the principal cities of the United Kingdom. It is composed of members who have made some special study of science, and who wish to have the opportunity of meeting others who have done the same. Any person may become a member by paying a subscription of £2 per annum, and on the payment of £10 he may compound for all future subscriptions. Associates may be elected by the council, but they have no right to vote. Ladies are admitted to the meetings on the same terms as members. The meetings are held annually, usually in the month of August, and the place of meeting is generally fixed by the council at the meeting of the previous year. The meetings are usually continued for one week, but they may be prolonged to a fortnight. The meetings are divided into sections, each of which is devoted to a separate department of science, and the sections meet from time to time during the week. The meetings commence on Wednesday, when the president delivers an address, and the evening is generally occupied by a soirée given by the president. On the following days the sections meet from 10 a. m. to 4 p. m., and in the evening there is a meeting for the reading and discussion of papers. On Saturday there is usually a concluding meeting, when the president delivers an address, and the evening is generally occupied by a soirée given by the president. On the following days the sections meet from 10 a. m. to 4 p. m., and in the evening there is a meeting for the reading and discussion of papers. On Saturday there is usually a concluding meeting, when the president delivers an address, and the evening is generally occupied by a soirée given by the president.

The twenty-four-hour mass which ended the Catholic Fairs yesterday must end about 6 Sept. 1, but it will cost long $$$.

The temperature yesterday, as observed by Hasbrouck opticians, Tribune Building, was as follows: 7 a. m., 67° above zero; 9 a. m., 68°; 10 a. m., 69°; 11 a. m., 71°; 12 m., 71°; 1 p. m., 72°; 2 p. m., 72°; 3 p. m., 68°. Barometer, 7 a. m., 30.01; 7 p. m., 30.01.

A suit was begun yesterday in the Superior Court by Mrs. Julia Curran against Mrs. Julia Gallagher to recover $2,000 for alleged slander. Mrs. Curran owns a boarding house and complains that Mrs. Gallagher has accused her of loose behavior with certain of the boarders.

Annie and Charles Farrell, aged 12 and 10 years, respectively, who were arrested in Lincoln-ave. on the 1st inst. upon a charge of stealing money from various stores, were discharged before Justice Bixby. The girl was fined $25 and the boy $5. The parents think the girl has been turned to unjust skepticism and the boy to an evil end.

M. E. McDonald, a contractor living at No. 207 Carroll-ave., was driving across South Water street, going southward, just as Water-street bridge, from its way out into to a level, began of its trigger and rather jar and Mr. McDonald pulled himself up slightly against the horse both fright and bolting up to the next block plunged into the river with the wagon.

The annual ch-mbbist ghost and dance-party festival will be held at Ogden's Grove, under the auspices of the Chicago Turn-gemeinde, next Sunday. The programme of amusements, including national games and exercises with the parts up to that of gymnastic drill by the Turners, will begin at 1 p. m. and last till 10 p. m.

John Burns, an hour-glass youth who was held in the Criminal Court under $500 bail for stealing his father's gold watch, but was released by the grand jury, was again before Justice Summers yesterday charged by his father with vagrancy. The boy contended that he was not to blame for the theft, and that he was induced to commit it by his father's promise that if he would get the gold watch out of pawn he would keep it himself. The father has not redeemed the time-piece as yet.

Three burglars broke into Daniel McDonald's residence, No. 1011 West Lake street, Sunday night and took $50 worth of stuff. As they were escaping the Sergeant-at-Arms of the Lake View Police Force and Officer Fenwick, coming up to quarrel, got in some shots at the fugitives, who returned the fire. Both officers sustained cuts on their heads, while Officer Fenwick received a bullet wound in the left leg. The burglars escaped.

H. C. McBride, a hostler, lives with his family at No. 207 Fifth avenue, and Justice Bixman is a constable employed by merchants mostly under the same roof. Sunday night McBride became suspicious of the way goods were coming and going from the store, and, concluding to investigate, set out to watch the premises. He had not been long at his post before he saw a man come out of the store with a bundle under his arm. He followed the man to a saloon on Madison-st., where he found Bixman. The latter, on learning McBride's errand, said he had been watching the man for some time, and that he had a search warrant in his pocket. They then went to the man's house, on Fifth avenue, and found a large quantity of stolen goods. The prisoner, Thomas Hayes, was locked up at the Central Station.

A Swedish musical authority announced that John Ericsson, aged 81, a freeborn man of Virginia, died at the Sherman House, Chicago, on the 8th inst. He had been in the city of the White Mountains, and was on his way home when taken ill. He left his wife at Springfield, and arrived at the Sherman on Saturday, and registered as the Rev. Mr. Ericsson. He had a ticket of that kind for several years. He was a respectable man, and was received in the public parlors, where a room was fitted up for him, and a number of gentlemen, but unnoticed.

Wiss Mrs. Mary Stone, living in Harlem, came to see her husband, Sherman, to break her Sunday was found into where a Spanish Cuban came to a sitting position on the ground, took his hand against a tree and a rope around his neck. He was promptly dead. They might have been in their shirt-sleeves. From their physical appearance they were about 30 years of age, and were different with sailors and the boat had a steamboat mate. Coroner Power, upon investigation, found that the men had probably been at sea a good deal, and the boat examined found that the vessel would sail again. Verdict accordingly.

LAW AND CRIME NOTES.

The special annual convention of the Law and Order League will convene at Lake Bluff on the 30 inst. There will be a meeting of the Executive Committee at 10 a. m. on that day, and the convention will be called to order and prayer will be offered by the Rev. Dr. Haven, after which the President, the Hon. C. C. Bonney, will deliver the annual address. The Secretary's report will then be read, and the general agent, L. There was nothing conspicuous about the financial situation yesterday but softness. The demand for all sorts of banking accommodation was very small, and some disappointment was expressed in the circles with which the call business is belonging. The others for currency from the country were very limited. The people of the rural districts are economizing their ability to take care of themselves even if they do not sell their crops. Currency comes from many quarters that the harvest and other interests are in a thrifty condition, and that if some of them are obliged to borrow they can get the funds locally from their neighbors. The country banks are sending in a little paper for rediscount, but the amount is very much less than it has been. It will be noticed that the bank clearings in this city fell a good deal below the $100,000,000 point yesterday. That is one of the settlements of accounts in trade.

Sterling exchange was strong and higher, the local supply being light. The market here was of course affected by that of New York, where the selling of stocks for foreign account is no doubt an influence in marking the prices. The posted rates for sixty-day bills here were 4@4 for sixty days and 4@4 for demand, actual business being done at 483½ and 484½. Commercial sixty days sold at 481@481½.

There was a little more activity to investment securities, during the week over the counter were $5,000 United States 6s at 122½, $5,000 United States 4½s at 121½, $5,000 Minnesota State 6s at 109, $5,000 Burlington, Cedar Rapids & Northern consolidated 5s at 91, $5,000 Denver & Rio Grande 1st 7s at 118, $5,000 Denver & Colorado 1st 6s at 108, and $5,000 New York 5s at 102½. The sales at the Chicago Stock Exchange were $5,000 City 6s of 1906 at 102½, $5,000 Kansas Funds 6s at 101½, $5,000 Lake Shore 7s at 131, $5,000 Peoria, Decatur & Evansville 8s at 81, $5,000 Peoria & Rock Island 6s at 97½, $5,000 Rock Island 6s at 101½, $5,000 Toledo, Peoria & Warsaw 7s at 97, $5,000 Union Pacific 6s at 118, and $5,000 Wabash 6s at 101½.

The following were the trading quotations at the Stock Exchange board which show a slight (½) advance over the prices that ruled yesterday:

There was nothing of importance in the sales on the New York Stock Exchange. There was a further development of the loan arrangement, which has become very pronounced in some quarters, the bulls in this city who have been very heavily interested for a long time, but considered a decrease in bank reserves the signal which gave confidence and acted on their convictions that it is now a good time to sell. The feeling is that if the original pools have much stock left on their hands they will find it hard to make a market to sell on, and that the combinations of the past are likely to make a move for the next turn. There has accumulated short selling of Union Pacific by bear speculators and some men of the Gould party. The expert has circulated here early in the day that a loan had been made up in the Vanderbilt office and the rumors, and that C. P. Huntington, of Lackawanna, in reporting an able manager to sell that stock short, after the experience of the latter engineered by Wilson, and some men of good judgment are doing it. The prevailing sentiment as settled even in St. Paul, which has been fairly bullish, here, as affected all. Some of the Wall street bulls have shown the report that there was to be a reorganization of stock by that company. It is said that "an important meeting of the St. Paul people" is to be held this week. One of the rumors now that the heads of the Gould roads are going to see Knight soon. The control of the Southern roads is an important element. It is given out that Fairchild will make that occasion so large that the opposition cannot afford to look their way. Gayhead is reported as settling his friends out to sell, and there is still some talk about higher prices for St. Paul and Union Pacific, but it is of a rather feeble sort.

There was a decrease of $1,500 in the earnings of the Omaha Road the third week of August and of $21,000 in those of the Northwestern Road. The rise in the gross earnings of the Northwestern Road from June 1 to Aug. 23 was $24,000.
